REPORT OF TRUSTEES OF TRUST FUNDS

Work in the cemeteries this year has been confined to the necessary cleaning up in the spring, the filling of some lots where the ground had settled over the graves and the usual cutting of grass. While the work this year was more extensive than last, the small income received from the invested funds is still inadequate for improvements that should be made.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and the Citizens of the Stoddard School District:

Herewith I submit my sixth annual school report for your consideration.

SCHOOL ORGANIZATION

School Board: Kenneth McClure, Chairman; Mrs. Aubrey A. MacMahon; Mrs. Charles Hill.

Supt. of Schools: Vincent Gatto, Ed. M., Hillsboro, N. H.

Teacher: Flora Charter.

School Nurse: Margaret E. Harris, R. N., Keene, N. H.

Graduates in June, 1940: Mary Parent, Albert Riley.

GENERAL DISCUSSION

The school district maintains a school board and a superintendent of schools to provide adequate educational opportunity for the children of the district. Both the school board and the superintendent feel it to be their duty to keep the school district informed and to make recommendations concerning the needs of the school, in keeping with present day standards. In order to fulfill the needs of the school as the school board and the superintendent see them we need your encouragement and appropriations.

The school enrollment this year has reached the unusual number of forty-five. There has been some fluctuation but, the average number remains close to the thirty mark. If this condition proves to remain permanent, an increase in the teaching staff will be necessary. No teacher can do justice to thirty or more pupils scattered over eight different grades. We were

fortunate to secure the services of a well trained, experienced, mature teacher.

The school board and the superintendent wish to bring up again several matters previously called to your attention.

Adjustable and movable desks for the children; the children's health demands them. Besides the children cannot do their best work seated at their desks with their feet dangling several inches from the floor, or cramped in seats which are too small for them.

The problem of water both for drinking and washing purposes still faces us. The children do not have enough for either purpose. If we had a plentiful supply near at hand on the school grounds, the children would have enough to quench their thirst. Then too we could have a water box over the sink to enable the children to wash in running water. The whole school at present use the same wash basin.

Another problem which needs to be emphasized is the lack of adequate toilet facilities. In the first place the vaults of the toilets now in use are too small for the size of the school. In the second place such toilets are no longer considered sanitary. We recommend very strongly the installation of septic toilets which are found to be sufficiently adequate where running water is not available.

We recommend an expression of opinion and some action regarding these matters at the next annual meeting.

Respectfully submitted,
VINCENT GATTO,
Superintendent of Schools.
